

## Native Plant Resources

The **Audubon Native Plant Database** is a helpful and fun-to-use resource to make your local area friendlier to birds. Just put in your zip code in the search box, and we'll show you which plants are best for birds in your area.

[ct.audubon.org/plantsforbirds](http://ct.audubon.org/plantsforbirds)

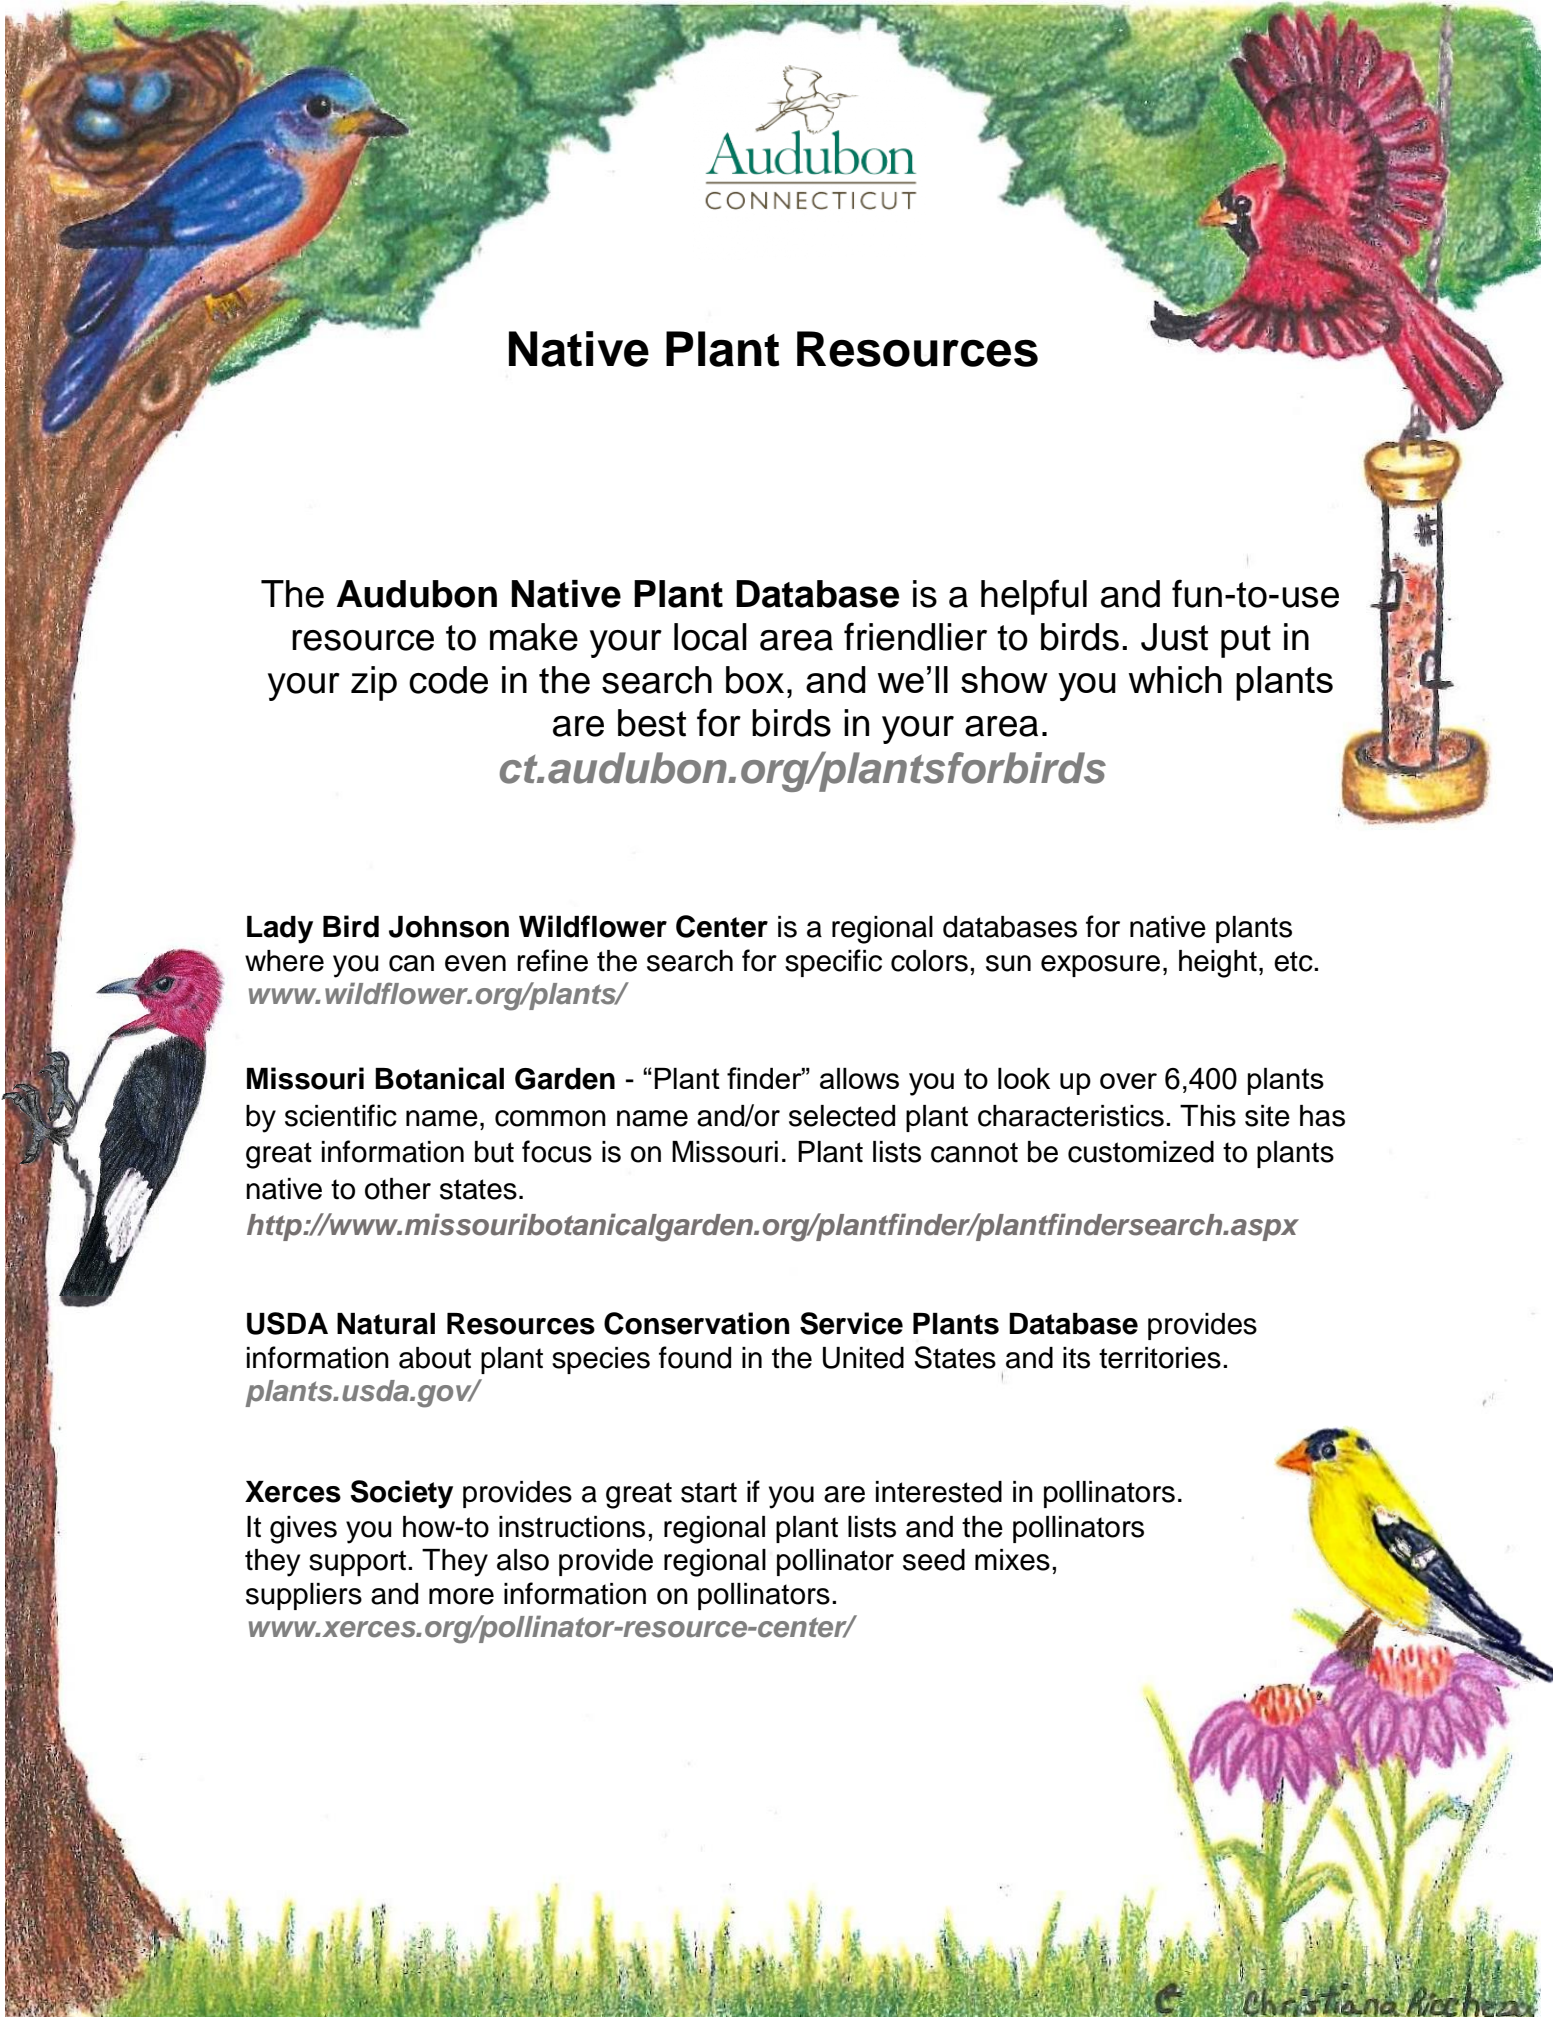

**Lady Bird Johnson Wildflower Center** is a regional databases for native plants where you can even refine the search for specific colors, sun exposure, height, etc.  
[www.wildflower.org/plants/](http://www.wildflower.org/plants/)

**Missouri Botanical Garden** - "Plant finder" allows you to look up over 6,400 plants by scientific name, common name and/or selected plant characteristics. This site has great information but focus is on Missouri. Plant lists cannot be customized to plants native to other states.

<http://www.missouribotanicalgarden.org/plantfinder/plantfindersearch.aspx>

**USDA Natural Resources Conservation Service Plants Database** provides information about plant species found in the United States and its territories.  
[plants.usda.gov/](http://plants.usda.gov/)

**Xerces Society** provides a great start if you are interested in pollinators. It gives you how-to instructions, regional plant lists and the pollinators they support. They also provide regional pollinator seed mixes, suppliers and more information on pollinators.
